Mister
TOUDOUX

LOKI

RULEBOOK

3+

Your toys decided to have an adventure today!

Led by Mister Toudoux and Ricky the Rocket, they climbed out their toy boxes to discover the furthest corners of your bedroom. They definitely had

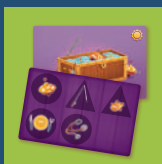

a lot of fun, but now it's almost bedtime and they're still not back... They might be lost! Good thing you're here to help them.

Your mission: Put everyone back in the right boxes before the stars appear in the night sky.

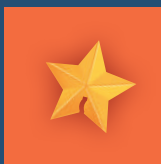

CONTENTS

24 Toy tokens

15 Box cards
(box side /
tidy side)

1 Star pawn

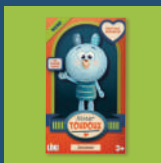

1 Night board

1 Bed

3 boxes

1 rulebook

**1 Pawstep
flyer**

GOAL

Happy Mess is a cooperative game that uses your sense of observation. Look at the Box cards and Toy tokens in front of you, then put them in the right boxes before night falls.

SETUP

1 Place the Night board vertically above the Bed (box bottom), so that the moon is on the right, and slide the Star pawn into the leftmost slot of the board.

2 Choose a set of 3 Box cards with the same symbol in the top-right, then place each one, box side up, in front of the box that matches the picture. Return the unused cards to the game box. You will not use them this game.

3 Place the 3 boxes and the Bed within reach of all players.

4 Place the 24 Toy tokens in the middle of the table, and mix them up, face down.

Happy Mess has three levels of cards: easy, medium, and hard. Each level has a different color.

YELLOW
GREEN
PURPLE

for the **easy** level.

for the **medium** level.

for the **hard** level.

For your first game, use the 3 yellow cards.

TIP

PLAYING THE GAME

In this game, you will take turns until you've tidied up all the toys, or until the Star pawn reaches the end of the Night board.

The player with the tidiest room plays first, then play goes to the left.

On your turn, flip over any 1 Toy token.

DID YOU REVEAL A TOY?

Look at all the Box cards in front of you, then put your Toy token in the right box.

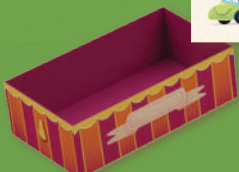

Your toy is on a Box card:

You must place it in the matching box.

Your toy isn't on any Box card:

That means you'd rather keep it with you! Put it in the Bed.

DID YOU REVEAL A STAR?

Move the Star pawn 1 space on the Night board, then flip the Toy token back over, face down, and leave it in the same spot.

Try to remember where the stars are so you don't flip them over again!

TIP

NOW THE NEXT PLAYER GOES!

END OF THE GAME

The game ends when all the toys are tidied up, or when the Star pawn reaches the end of the Night board. If the Star pawn reaches the end, leave any toys you didn't tidy up where they are, face down. Do not count them for points.

Now it's time to check if you put away the toys in the right place. One by one, flip over the Box cards to their tidy side, then empty the Toy tokens from the matching box. Finally, check if the toys in the box are shown on the card.

If the toy is shown on the card: Good job, you found the right box!
You get 1 point!

If the toy is not shown on the card: Oops, it got lost tonight!
You do not get a point for this toy.

Check the

TABLE

below

to find out how well
you did:

15 Points

Mission accomplished!
You helped all the toys
find their boxes before
bedtime. Everyone
will have sweet
dreams until the next
adventure!

10-14 Points

Excellent! Almost all
the toys are either
in their boxes or
snuggled in bed with
you. Some got lost,
but you know they're
the bravest ones who
aren't afraid of the
dark!

5-9 Points

Good! There aren't
many toys left
wandering around.
Don't be sad for them,
their tidied friends
will encourage and
comfort them by
singing songs from
their boxes.

0-4 Points

Not bad! Maybe you
were just unlucky! The
stars seemed to be in
a hurry. Even though
just a few toys were
tidied up, don't feel
bad. They're ready for
the next adventure!

SPECIAL THANKS

Corentin thanks his children, Danaë and Nohan, who rarely tidy their bedroom, for inspiring this game.

LOKI thanks the children of the Heillecourt school and the P'tits Malins day care in Heillecourt for their countless playtests.
